ONE PLATFORM. THREE PRODUCTS.

## Endpoints, access and security — **finally in one console.**

### Scalefusion UEM

Secure and manage every endpoint your business runs on.

- **Multi-OS** — Windows, macOS, iOS, Android, Linux, ChromeOS
- **Zero-touch enrolment** and remote support
- **OS & third-party patching** on autopilot
- **App management**, kiosk lockdown and BYOD

### Scalefusion OneIDP

Zero Trust access driven by device compliance.

- **Single Sign-On** to cloud and internal apps
- **Endpoint authentication** — no local accounts
- **Conditional access** on IP, Wi-Fi, location, posture
- **Conditional email access**, JIT admin and MFA

### Scalefusion Veltar

Endpoint compliance and security, unified with UEM.

- **Secure Web Gateway** and content filtering
- **Business VPN** for data in motion
- **Endpoint DLP** and I/O device control
- **Automated compliance** and posture remediation

### EVERY OPERATING SYSTEM. EVERY DEVICE CLASS.

Windows · macOS · iOS & iPadOS · Android · Linux · ChromeOS · Android TV · rugged & POS · kiosks. **OEM-integrated** with Samsung Knox, Zebra, Lenovo, Honeywell and 15+ more.

# Everything IT needs — delivered locally.

Fewer consoles, fewer manual steps, fewer surprises at audit time — wrapped in SecureCentral's regional licensing, pre-sales and support.

## Zero-touch deployment

Devices arrive pre-configured, secured and ready to work — no imaging bench, no delays.

## Patching on autopilot

Automated OS and third-party updates close vulnerability windows without disruption.

## Remote control & support

Fix devices anywhere — file transfer, session recording, VoIP and ITSM ticketing.

## Frontline & kiosk lockdown

App lockdown, digital signage, live location tracking and geofence alerts for field fleets.

## BYOD without the risk

Work containers separate corporate from personal data — with selective wipe on exit.

## Data protection & DLP

Encryption, reset protection, web filtering, business VPN and endpoint DLP as standard.

### WHY BUY THROUGH SECURECENTRAL

## Regional licensing

Contracting and renewals handled locally across AU, NZ, SG, MY and ID.

## Solution consulting

Certified architects scope, demo and prove the solution with your team.

## Managed support

First- and second-line support in your hours, backed by <4 min vendor chat response, 24/6.

## Marketing support

Co-branded campaigns and localised collateral partners can run out of the box.

**PROVEN IN PRODUCTION** HAVI Logistics · Alliance Air · DiaSorin · Stanley Hotel & Suites — zero-touch rugged rollouts, EFB-mandated iPads for pilots, 2,000+ tablets in kiosk mode and geofenced staff devices.

**STANDARDS** ISO/IEC 27001:2022 certified & SOC 2 Type 2 (Scalefusion) · GDPR ready · HIPAA · Android Enterprise Recommended · Gartner Magic Quadrant for UEM, Midmarket Context · ISO/IEC 27001 certified (SecureCentral)

## Ready to see it on **your devices?**

1. 30-minute discovery call   2. Guided pilot on your own devices   3. Staged rollout, enablement and local support.
