

KASEYA × SECURECENTRAL · SOUTHEAST ASIA

Run your entire IT operation from one intelligent platform.

Kaseya unifies endpoint management, cybersecurity, backup and service delivery in a single, AI-driven platform — and SecureCentral makes it work on the ground in Southeast Asia, with local pre-sales, onboarding, commercial terms and in-region support.

 DELIVERED & SUPPORTED IN ASEAN
 BY SECURECENTRAL

VALUE-DRIVEN TECHNOLOGY PARTNER

40,000

customers worldwide trust Kaseya

150+

countries served globally

17M

endpoints managed on the platform

5X

more capacity for IT teams

THE KASEYA 365 PLATFORM

Three subscriptions. One console. One bill.

Kaseya 365 bundles the tools MSPs and internal IT teams use every day into a single low-cost licence — instead of stitching together five or six vendors.

ENDPOINT

Kaseya 365 Endpoint

Manage, secure and back up every device — server, desktop, laptop — under one subscription.

- RMM: Datto RMM or VSA 10
- Patching & software management
- Datto AV antivirus + Datto EDR
- Ransomware detection
- Endpoint backup (5 TB shared)
- 24/7 MDR/SOC — RocketCyber (Pro)

Express & Pro tiers · 20 built-in automations

USER

Kaseya 365 User

Prevent, respond to and recover from the attacks that target your people and their cloud data.

- AI email security — INKY
- Security awareness training — BullPhish ID
- Dark web monitoring — Dark Web ID
- SaaS detection & response — SaaS Alerts
- Microsoft 365 / Google Workspace backup
- 60 GB backup data per user

50+ automations · up to 70% below piecemeal tools

OPS

Kaseya 365 Ops

Connect service delivery, documentation, quoting and billing so revenue never leaks.

- PSA / service desk — Autotask, BMS or Vorex
- IT documentation — IT Glue Enterprise
- Network discovery — Network Glue
- Quoting & procurement — Quote Manager
- AR & billing — ConnectBooster
- QBRs & roadmaps — myITprocess

13+ hours saved per technician each month

Cut tool sprawl

Replace overlapping point products with one integrated stack.

Automate the busywork

Cross-product automations turn routine tickets and patching hands-free.

Protect the margin

One predictable per-seat price, with a Partner First price lock.

Land it locally

We scope, prove, onboard and support the platform in-region.

The Kaseya portfolio, delivered locally

**Endpoint Management & RMM**

Remote control, patching and policy-driven automation for every device.

Datto RMM · VSA 10 · Advanced Software Management (third-party patching)

**Cybersecurity & Threat Response**

Layered defence across endpoint, email and SaaS, with 24/7 managed SOC.

Datto AV · Datto EDR · RocketCyber MDR/SOC · INKY · Dark Web ID · BullPhish ID · SaaS Alerts

**Backup & Business Continuity**

Encrypted backup and rapid recovery for servers, endpoints and cloud.

Datto BCDR · Datto Endpoint Backup · Datto SaaS Protection · Unitrends

**IT Operations & Service Desk**

Ticketing, documentation, quoting and billing in one operating model.

Autotask PSA · IT Glue · MyGlue · Network Glue · Quote Manager · ConnectBooster · myITprocess

**Risk, Compliance & Testing**

Evidence-based risk reporting and automated penetration testing.

Vonahi vPenTest · Compliance Manager GRC · Network & security assessments

**Networking & Unified Platform**

Managed network gear plus one identity and data layer for every module.

Datto Networking · KaseyaOne single sign-on · Kaseya Intelligence

WHY SOUTHEAST ASIA BUYS KASEYA THROUGH SECURECENTRAL

Global technology, regional accountability.

● In-region delivery

First- and second-line support in ASEAN time zones, with onboarding and migration run by local engineers.

● Compliance-ready

Deployments mapped to ISO/IEC 27001, NIST and MAS TRM, with practices aligned to local data-protection rules.

● Commercially simple

Regional contracting and consolidated billing through SecureCentral and its authorised resellers.

● Proven at scale

12+ years of APAC distribution across 8 markets, with certified pre-sales architects on every deal.

ISO/IEC 27001 certified

CSRO-licensed Managed SOC monitoring

CSRO-licensed penetration testing

WHAT A VALUE-DRIVEN PARTNER ADDS

Beyond the licence

01

Consulting & proof of value

Architects scope, demo and build the business case with you.

02

Onboarding & migration

Project-managed rollout, PSA/RMM migration and technician enablement.

03

Managed regional support

Local-hours service desk from our own managed services practice.

04

Marketing & demand gen

Co-branded campaigns and localised collateral, ready to run.

MSPs — standardise the stack and grow recurring revenue.

Enterprises & SMEs — one platform for endpoint, user and cloud.

Public sector — documented controls and audit-ready reporting.

NEXT STEP

See Kaseya 365 running on your environment.

Book a 30-minute discovery session: we map your current tools, size the licence and show the platform live.
